

MPR-3D-Connectors type S+1

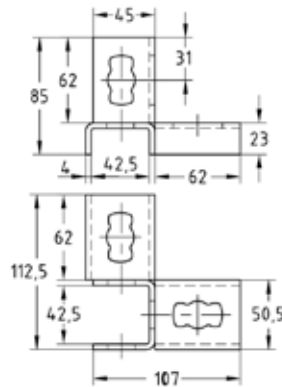

hot-dip galvanised

Application

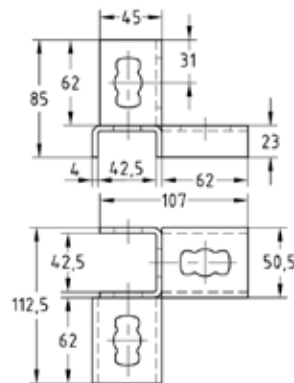

- Fasteners for three-dimensional structures e.g. when installing floors in technical rooms on ships

Your advantages

- Fast and simple installation of three-dimensional connections joints in combination with the MPR-Connection lock type S+
- In combination with Saddle support type S+1, stand heights of ≥ 180 mm can be realized
- Applicable for cramped installation conditions
- Weight savings due to compact product design

MPR-Corner connector left type S+1

MPR-Corner connector right type S+1
