

### Channel connector heavy-duty version, hot-dip galvanised

#### Application

- Quick butt-joint connection for MPC- and MPR-Support channels
- Suitable for outdoor use

#### Your advantages

- Enables exact alignment of the channels
- Four bolts provide a frictional joint
- For highly load-bearing connections:
  - form-locking connection of through fitting attachments by means of threaded pins or hexagon head bolts and hexagonal nuts
  - with 4 oblong holes, adapted to the hole pattern of the MPC-Support channels
- Also available in double length for heavy-duty connections
